

Grade 3 at QES

2023-24

Literacy Goal:

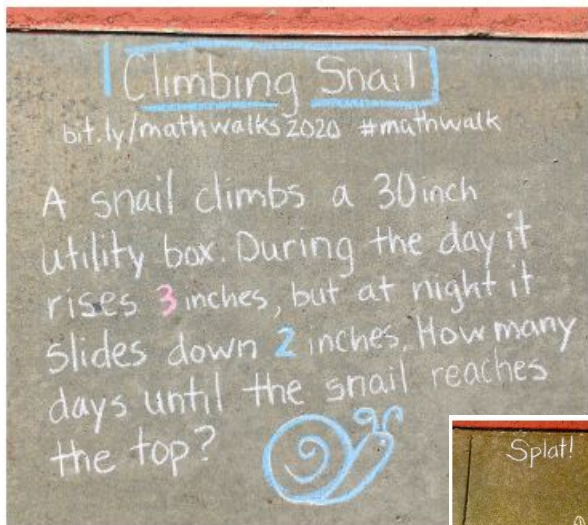

Student achievement in written organization will improve.

Discussing feedback for exemplars.

Math Goal

Student achievement in the acquisition of numeracy concepts will improve through applying relational understandings to problem-solving.

Read It!

☐ Understand the Problem!

- ☐ Read the problem more than once.
- ☐ Highlight or underline important or key words.
- ☐ Discuss it with a partner so you both understand it better.

Think It!

☐ Make a Plan!

- ☐ What strategy will you use and why?
- ☐ Discuss strategies with a partner.
- ☐ What tools or materials can you use to help you?

Solve It!

☐ Carry out the Plan!

- ☐ Apply your strategy. (You may need to revise your strategy.)
- ☐ Show your work and your thinking.
- ☐ Ask yourself: Is my answer reasonable? Does it make sense?

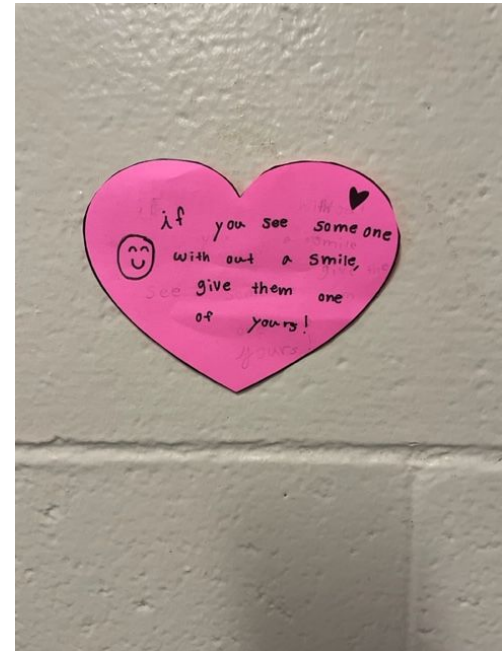

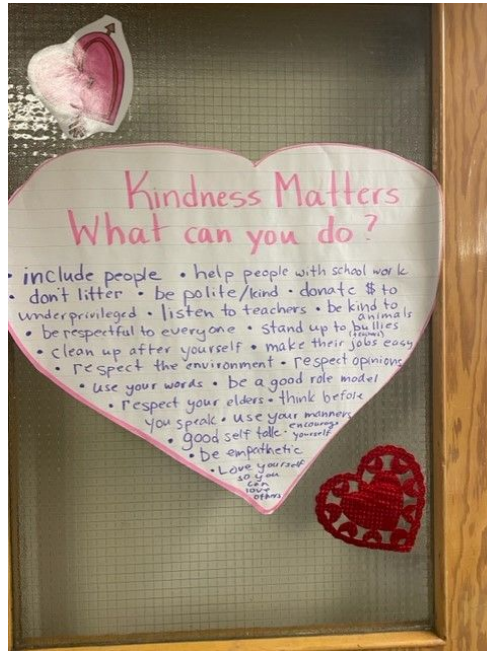

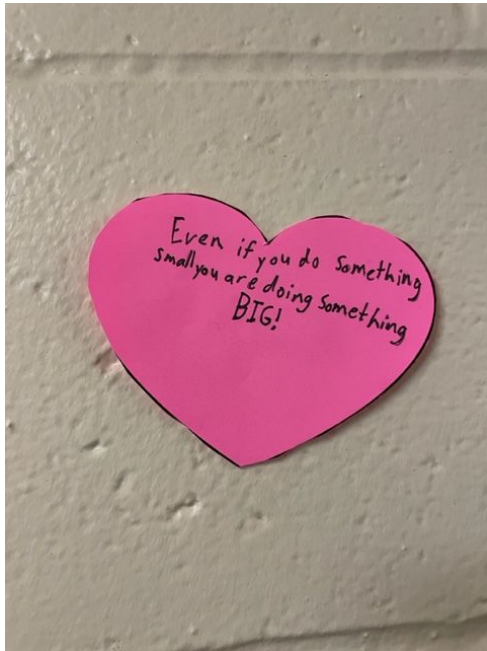

Explain It!

☐ Communicate the solution!

- ☐ Answer the question.
- ☐ Tell, show, write how the answer was reached.
- ☐ First I... I noticed that... Then I... I thought... Finally...

Well - Being

Students will improve their personal wellbeing by developing their awareness of outcomes (both social and academic) to support in problem solving and addressing challenges.

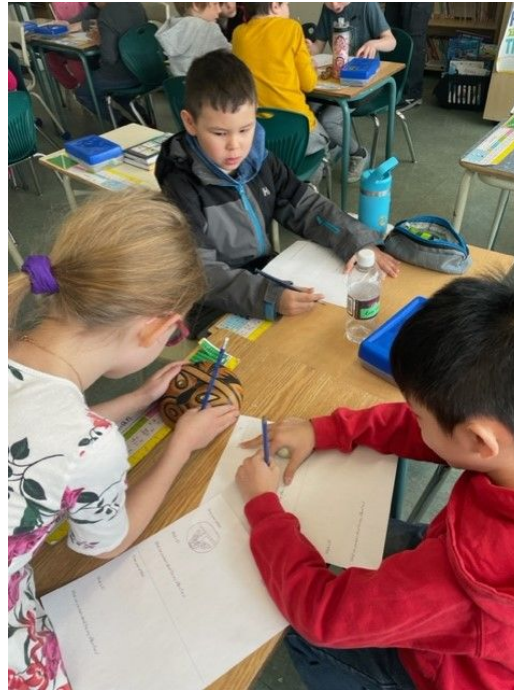

Things we might be excited about:

Rocks and Minerals

Ukraine

Tunisia

India

Peru
