

hello
KINDERGARTEN

A decorative graphic featuring the word "hello" in a pink, cursive script font, with a small orange heart on either side and a sprig of leaves above it. Below "hello" is the word "KINDERGARTEN" in a green, bold, sans-serif font. At the bottom is a horizontal sprig of leaves.

Learning the most important words!

Learning the letters in our name and how to print them properly has been a huge part of our learning in kindergarten. We are also learning to advocate for ourselves by ensuring that everyone knows our names and can say them properly! We have spent the first few weeks introducing ourselves to the QES Wolf Pack! Please say "Hi" when you see us!

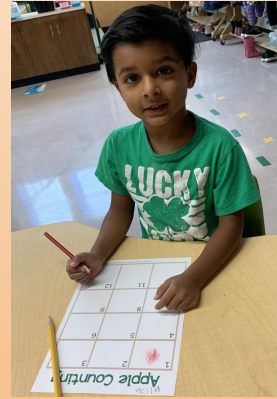

Math and Literacy Centres

Exploring Math and Literacy concepts through play, help kindergartners make connections, discoveries, and choices based on their own interests, needs, and strengths. Each day we discuss our learning goals using "I can" statements. Our families see these "I can" statements echoed in our Week at a Glance posted each Sunday on Google Classroom.

A is for Apple!

What is fall without some harvest exploration! We were able to create use apples as a vehicle for printing, letters, number sense, the senses and art!

**One of our year
long explorations is
to see ourselves as
part of: the Wolf
Pack, our
community,
Canada and as
global citizens!**

**It is a big goal that
we are already
working through
creative designing
tasks!**

Travelling Tuesdays!

Kindergarten is exploring our role in the community by weekly walking excursions around the neighbourhood. Currently we are learning how to walk as a group but we plan to find ideas of how the Wolf Pack can help make our community a better place!

Cross Canada Alphabet Exchange

QES Kindergarten
is exploring our
place in Canada by
exchanging letters
with 25 other
schools across
Canada. We will be
working cross
country to create
an alphabet display
for our classrooms!

Global Monster Project

QES Kindergarten was responsible for telling children around the world how to design the monster's belt! Check out our description:

A golden shiny crown belt with a massive diamond and 7 points made of spider webs, housing 7 spiders.

We cannot wait to see how everyone builds their belts!
